Subject: *Request of "Lunas Eskwela" study for Endorsement of School Facility Survey on all schools in NCR*

Dear Director Andaya,

We would like to express our appreciation for your continued support, particularly in providing the necessary endorsement to selected schools for the conduct of research activities related to the study entitled "*Lunas Eskwela: Exploring the Acceptability and Feasibility of School-Based HIV Testing Among High School Students in the Philippines*".

In addition to the ongoing research activities conducted in the selected schools, the study incorporates an online School Facility Survey encompassing all public and private institutions offering secondary education (Grades 7–12) within the National Capital Region (NCR). The survey is designed to systematically assess the availability of health-related services, programs, and resources across schools, thereby providing evidence to inform the identification and prioritization of school health needs in the region.

In this regard, we respectfully request your endorsement and assistance in facilitating the official dissemination of the online survey to all public and private schools within the NCR. The survey will be accessible through the following link: <https://redcap.link/foo0i6ag>. We kindly request that completed survey forms be submitted on or before **31 August 2026**.

Our study team will closely monitor incoming survey responses and commit to providing the Region with regular updates on the progress and status of the data collection.

We sincerely hope for your favorable consideration and support for this request. Should you require additional information or documentation, please contact Ms.
